

**Nairobi,  
Thursday, 15 September, 2022.**

## **NOTICE TO THE PUBLIC.**

---

The Transition Committee today published the interim leadership of the Communist Party of Kenya. The decision to appoint interim Central Committee members came after conducting broad discussions with members and consulting among the membership on the Party's state of affairs after several key members abandoned the party. The new leadership is charged with the goal of organising a National Congress; to be held no later than September 14<sup>th</sup>, 2023.

To recap: the Party fractured after the former General Secretary, Mr Benedict Wachira and former Chairperson Mr Mwandawiro Mghanga made a unilateral decision to join the Kenya Kwanza political alliance. The two factions are incompatible due to ideological reasons because Kenya Kwanza is firmly on the right.

The new Central Committee declared that the Party would forever be a Vanguard Party built on a clear Marxist-Leninist (CPK-ML) line. The party also announced it will distance itself from the CPK-Kenya Kwanza faction to focus on restoring the Party's dignity and supporting the people's struggle.
